Forecast for Friday 03 Mar 2023

Weather: Cloudy overnight and some drizzle possible at times with a damp and cold feel. The morning will be quite dull but mainly dry. There will be very few cloud breaks but perhaps more chance later in the afternoon or evening in the west.

Chance of cloud-free hill tops above 600m: 70%, early low cloud will lift above all summits.

Low cloud and visibility: Layers of scattered cloud around 5-600m are expected in the early morning however these should lift above the height of all summits by late morning with mainly clear summits in the afternoon. General visibility below the cloud layer should be good or very good but it will feel rather dull in the morning.
